

POZNAŃ / POLAND / RESIDENTIAL REAL ESTATE

Three addresses. Different plans.

A factual overview of Constructa Plus projects and Poznań for people considering a home, a rental property, or accommodation for staff.

COMPLETED BUILDING • UNDER CONSTRUCTION • NEW PROJECT

FACT-CHECKED OVERVIEW • SEPTEMBER 2026

CONSTRUCTA PLUS | POZNAŃ

Three projects, three different timelines

Poznańska / Wąska

52 apartments

25-106 m²

The building can be viewed; current unit availability must be confirmed.

Grobla 19B

55 apartments

33 underground spaces

Under construction; current availability, payment schedule and contractual dates are confirmed for the selected unit.

Rynek Łazarski / Kącik

about 100 homes*

33-131 m²*

Figures from media coverage; obtain the prospectus and schedule.

* Rynek Łazarski / Kącik figures come from media coverage and require confirmation.

Poznańska / Wąska

A completed building in the heart of Jeżyce. The official project page lists 52 apartments ranging from 25 to 106 m². Features include glazed loggias, façade greenery, an underground garage and two bicycle rooms.

52
apartments

25–106 m²
reported size range

A completed building does not mean every unit is available or ready to move into. Confirm price, condition, parking and handover timing for the specific apartment.

Grobla 19B: central, close to the Warta

55 apartments and 33 underground parking spaces. The project page gives distances of 700 m to the Old Market Square and 350 m to the Warta River. Plans include loggias, a bicycle room and a landscaped green pocket facing the street.

55
apartments

700 m
to Old Market Square

350 m
to the Warta River

Under construction. Availability, prices, payment schedules and contractual terms are confirmed for each selected unit.

Rynek Łazarski / Kącik

A new residential and retail project beside the historic Łazarz market square. A local report dated 31 August 2026 says it is planned to include about 100 apartments, retail units and underground parking. The reported apartment range is 33-131 m².

≈100

homes reported

33-131 m²

reported size range

The figures and schedule come from media coverage, not a prospectus reviewed for this presentation. Request the official prospectus, schedule, floor plans, prices and current availability.

Architecture and completed work

Two recognised Poznań projects associated with Constructa Plus.

Żelazko

Constructa Plus revitalised the historic corner tenement at Ogrodowa and Krysiewicza. The project received the Jan Baptysta Quadro Award for

Dom Książki

The reconstruction and extension of the modernist Dom Książki on Gwarna Street received the SARP Award of the Year 2026 in the multi-family

Awards recognise completed projects; they do not forecast apartment prices, rental income or future resale liquidity.

Poznań has a measurable business base

PLN 98.3bn

city GDP, 2023; latest available year

€8.8bn

estimated cumulative FDI at end-2024

161

business-service centres in 2024

30,000+

people employed in these centres

100,433

students, academic year 2024/25

5th

among large European cities, fDi 2025

In the fDi ranking, Poznań placed second for Business Friendliness and Human Capital & Lifestyle, and ahead of Cologne and Stuttgart among 379 cities. The ranking describes the city, not returns on a specific apartment.

274 km

by road to Berlin. The western location connects Poznań with Germany; it does not determine unit value.

Safety: a comparison with European cities

Police-recorded offences per 100,000 residents, 2023 • NUTS 3 regions • Eurostat

OFFENCE TYPE	Poznań City of Poznań	Berlin Berlin	Paris Paris	Amsterdam* Groot-Amsterdam	Brussels* Brussels-Capital Arr.
Intentional homicide	—	1.24	1.09	—	3.35
Robbery	15.83	148.34	489.17	104.04	483.89
Burglary of a dwelling	83.79	229.10	514.79	167.90	527.22
Theft	764.71	3,399.56	7,127.56	2,722.66	4,895.95

For robbery, residential burglary and theft - the three categories with a Poznań value - Poznań has a lower recorded rate than every comparator shown. "-" means no value, not zero.

Eurostat metadata says Polish homicide data are unavailable at NUTS 3; I therefore omit a conflicting value visible in the online table. The Dutch police series also includes attempted homicide and Eurostat does not use it as a homicide count. The remaining figures are police-recorded offences, not a complete measure of victimisation; definitions and recording practices differ. Groot-Amsterdam is larger than the municipality of Amsterdam. Treat this as indicative, not proof that a specific address is safer.

City data cannot guarantee personal or property safety. For a specific address, check the neighbourhood, access routes, lighting, building security and insurance.

Camp Kościuszko: confirmed U.S. Army presence

U.S. ARMY

CAMP KOŚCIUSZKO POZNAŃ

USAG Poland HQ
V Corps forward headquarters

Camp Kościuszko in Poznań hosts the headquarters of U.S. Army Garrison Poland. The U.S. Army also identifies Poznań as the location of V Corps' forward headquarters. The garrison oversees 11 installations across the three military communities of Poznań, Powidz and Świątoszów.

This confirms Poznań's strategic and logistical role in the U.S. presence in Poland. It does not mean the military protects a particular residential project, reduces war risk, or guarantees investment security.

Buying a new-build apartment: the basic sequence

01

Choose a unit

Size, layout, price, parking and timing.

02

Developer agreement

A notarial deed and payment schedule.

03

Stage payments

Into a residential escrow account; the bank checks construction stages under the applicable rules.

04

Technical handover

After construction and occupancy approval, inspect the apartment and record defects.

05

Transfer of ownership

A second notarial deed after the agreement conditions are met.

The residential escrow account and Developers Guarantee Fund operate in situations specified by law. They do not guarantee profit, on-time completion or a defect-free apartment. A completed unit may follow a shorter process.

Start with the intended use

A HOME

Consider layout, daylight, noise, transport and move-in timing.

RENTAL

Compare total purchase and running costs with achievable rent and possible vacancy.

STAFF HOUSING

Match location, bedrooms and timing to the company's actual need.

EARLY PURCHASE

Check payment stages, assignment terms, taxes and exit options. Price growth is not guaranteed.

Email what you are looking for. The sales office will send available units, prices and terms.
